TOWEL, TISSUE DISPENSERS & REFILLS

The Genuine Joe® Solutions towel and tissue products feature a smaller core allowing for more product on each roll. This increased capacity means fewer roll replacements and lower labor costs. Having a core means you will use 100% of the product. No 5-10% stub roll waste.

Our new environmentally sustainable, high capacity line of towel and tissue products are made with 100% virgin fiber that is whiter, brighter, cleaner, and softer to enhance the washroom image. Plus, lowering the cost in use and reducing change out time and maintenance cost makes it a smart choice.

With our innovative adapters, it's easy to convert your standard bath tissue into a high capacity Genuine Joe® Solutions roll with up to twice the product!

SKU#	DESCRIPTION	SIZE	COUNT	COLOR	PLY	EMBOSS	PACK	PRICE

The World's Most Eco-Friendly Air Freshness System guarantees 30 days of consistent fragrancing for each cartridge.

The innovative new Genuine Joe Solutions Active Air Care System is an Oxygen powered system, based on proven fuel cell technology that is used extensively in the pharmaceutical industry to deliver drugs to humans and animals. It uses the energy from standard commercial batteries to generate pure oxygen, which delivers the fragrance fluids constantly, consistently and accurately.
